

# NURSERY HOME LEARNING

## WEEK COMMENCING: 20<sup>TH</sup> APRIL 2020

I hope you are all having a lovely time at home and enjoying spending time together. I would love to see what you have been doing at home, please e-mail me any work or pictures. I can't wait to see ☺

### Story telling

Let's introduce the story of the three little pigs. If you have this story at home...great! But if not this doesn't matter, you can find the story online.

Listen to it here: <https://www.bbc.co.uk/cbeebies/radio/the-three-little-pigs>

Watch it here: <https://www.youtube.com/watch?v=QLR2pLUsl-Y&safe=true>

Read it here: <https://worldstories.org.uk/reader/the-three-little-pigs/english/262>

Maybe you could build your own houses using things you may have around your home. Empty boxes work perfectly or different bricks, containers...even cushions would be a great house! I wonder if the wolf could blow your house down?

### Get those fingers moving:

We love Wolves and I think you definitely need to draw a picture of the wolf so everyone knows what he looks like! I wonder how many eyes he has? Remember a big mouth so he can blow and blow and BLOW! Don't forget to write your name on your picture!

Challenge: Can your child find their name around them? Hide their name around the house and see if they can find them. Add in other words beginning with the same letter to really challenge!

### Fun inside or in the garden

A simple game to play to develop listening skills and following instructions is to hide teddies (or any toys) around the house and get your child to try and find them. Use instructions such as "Look under..." "On top" "inside" "up" "down" "take three steps" "It's behind..." This game is hours of fun!

### Maths

Lets have a shape week! This song is super catchy <https://www.youtube.com/watch?v=ifHslykDDFU>

Challenge: Go on a shape hunt around your house. What different shapes can you find?

Draw what you find. Talk about the features of the shape, are they big? Are they little? how many sides do they have? How many of the same shape can you find around you?

### Keep yourself active

Joe wicks PE session is each morning on YouTube at 9am. You can have a go any time just search "P.E with Joe" or go to <https://www.youtube.com/watch?v=qGKGNzNbWjU&safe=true>

### Phonics

#### Phase 1 phonics:

I hope you enjoyed listening and making different sounds around the house. Now can you identify different environmental sounds? You can listen to different sounds you may hear outside from the window or in the garden.

You can also find some fun sound bingo games on YouTube

[https://www.youtube.com/watch?v=h0Kp\\_J9kvNM&safe=true](https://www.youtube.com/watch?v=h0Kp_J9kvNM&safe=true), just get ready to pause when needed so you can all have a guess what sounds you can hear

Phase 2 phonics: I hope you had fun finding things beginning with "sss" and "a"

This week let's move on to "T" and "P" Can you find and draw things around you that begin with these letters. Challenge: Can you think of things that you can't see that begin with these letter. Watch how to sound them out on <https://www.youtube.com/watch?v=T4IfiKiQ-3I>
