

NURSERY HOME LEARNING

WEEK COMMENCING: 1ST JUNE 2020

Story telling

Continue to read to your child each day. You can find a story that you both enjoy and base different fun activities around the book. For example, draw the characters, act out the book, make stick puppets out of the characters. A lot of stories have YouTube clips to watch as well and you can find songs that may fit around the story too.

Continue to use the Oxford Owl website to listen to different stories and share them together
<https://www.oxfordowl.co.uk/> and click on my class login to enter:

Fun outside or in your garden

The weather has been beautiful, and I have noticed lots of beautiful flowers.

<https://www.bbc.co.uk/bitesize/clips/z3wsbk7> shows you the life cycle of a plant.

How many beautiful flowers can you spot outside?

Challenge: Draw your own flower and label the different parts

Maths

Enjoy looking at amounts and numbers using this fun game. You can explore the numberblocks by building your own, colouring them in and counting that amount.

<https://www.bbc.co.uk/cbeebies/games/numberblocks-make-and-play>

Challenge: Use different materials to create your own numberblocks. You could build with Lego or blocks, draw them, cut and stick, use pillows...anything!

Mark making

Below is a website which gives tips and ideas for different ways to encourage your child to make marks!

<https://www.pacey.org.uk/parents/parent-essentials/tips,-factsheets-and-downloads/mark-making-tips-for-parents/>

Phonics

Continue to use phonics play to explore different phonics games

<https://new.phonicsplay.co.uk/>

Phase 2 phonics:

We are now focusing on the next sounds which are: i, n, m, d

"d" this week. Sound out the letter, practice forming it in the air and on paper, find objects around you that begin with "d" and then draw things or people that begin with "d" that you can't see!

Check YouTube for the pronunciations of the sounds:

<https://www.youtube.com/watch?v=NCoAuxfMqy4>

Extra fun:

Below is a link to a site that lists some great apps you can use with your child

<https://hungrylittleminds.campaign.gov.uk/#information>

Teacher's pet website has lots of lovely activities if you have a printer...<https://tpet.co.uk/downloads/category/early-years/>

or you can visit <https://www.tts-group.co.uk/home+learning+activities.html> and click on the EYFS section to download your own Early years activity book

If you don't have a printer, don't worry there are lots of other activities to keep you busy on classroom secrets <https://classroomsecrets.co.uk/> look at the EYFS section
