

NURSERY HOME LEARNING

WEEK COMMENCING: 18TH MAY 2020

Story telling

Pick your favourite story and read it each day! Maybe your child could read the story to you too. They could line up their toys and read the story to them too. Draw pictures and story maps of your favourite story and maybe you could make up some actions for the story and re-tell it without the book. Aim to read at least one story a day with your child.

Maths

Let's think of patterns and matching. You can use objects around you to find and match patterns. Challenge: Can you find pairs of socks and put them on a washing line or line them up on the floor. Talk about the fact that two identical socks are a pair. Spot the patterns and find the pair. You can use language to compare sizes e.g. bigger, smaller, longer, shorter and describe the pattern on the socks.

Phase 1 phonics:

Let's have an instrument week. If you have instruments at home...great! Join in playing them together. Shake some bells, sing whilst you play, try instructing your child to play their instrument louder, quieter and stop!

If you don't have any instruments at home...never fear! You can make your own. Find some old pots such as yoghurt pots and fill with anything that you may find. Items could include pasta, rice, stones, feathers...the list is endless. The cover with paper and cello tape down.

Learning to

Phase 2 phonics:

We are now focusing on the next sounds which are: i, n, m, d "m" this week. Sound out the letter, practice forming it in the air and on paper, find objects around you that begin with "m" and then draw things or people that begin with "m" that you can't see!

Check YouTube for the pronunciations of the sounds:

Extra fun:

On CBeebies iPlayer "Nick Cope's Popcast" is super fun for singing and dancing too
