

NURSERY HOME LEARNING

WEEK COMMENCING: 6TH JULY 2020

Story telling:

Continue to use the Oxford Owl website to listen to different stories and share them together

<https://www.oxfordowl.co.uk/> and click on my class login to enter:

Username: thamesiden

Password: ThamesideN

We have enjoyed exploring some different Julia Donaldson stories. We enjoyed reading "Zog"

You can listen to the story here:

<https://www.youtube.com/watch?v=75aXrJgMVow&safe=true>

You can watch the story here:

<https://www.bbc.co.uk/iplayer/episode/b0bwdw8y/zog>

Maths:

Continue trying the wonderful activities on: <https://nrich.maths.org/13371>

We have enjoyed predicting recently. Looking at different objects and seeing if they will float or sink in the water.

We have also been experimenting with length, height and weight. Finding different objects and seeing which is smaller, taller, heavier, lighter and what objects are the same.

Phase 1 Phonics:

Continue to use phonics play to explore different phonics activities

<https://new.phonicsplay.co.uk/>

Using the story of Zog, can you clap the different rhymes you can hear in the story.

Write down the words that rhyme and repeat them together.

Phase 2 phonics:

<https://parentshomeworkhub.com/week-1-learning-to-read-satp/> has some good ideas on re-capping and teaching the different sets of letters. Explore the website to find which word set you are on. When watching the sound video's focus on jolly phonics as this is what we use in school.

We have been making Silly Soups at school. I wonder if you could have a try making a silly soup using S, A, T, P, I, N sounds.

A silly soup is where you find different object beginning with certain sounds. You then mix them all up together!

More ideas:

Can you create a map of how Zog's journey to school?

<https://www.gruffalo.com/activities/activities> has many different activities you can enjoy based on Julia Donaldson stories.
